EQUAL HOUSING
OPPORTUNITY

From the General Manager

MARK REID

The last day of winter is just a few weeks away, and as many of us have seen and felt the days are getting warmer and brighter. As some of our membership may be curious about the progress of the clubhouse repairs, I wanted to give some reassuring updates.

As you may have seen from previous updates, we are now finalizing the cost of the repairs and seeking an agreement with our insurer. Because the downstairs areas of the clubhouse will get through rebuilding a bit quicker and will see usage sooner than the upstairs, those portions will be the first to be completed. If we can get approval from the insurance company, we are positioned to start work beginning the 22nd of this month and proceed rapidly thereafter. This will enhance our operations and bring the use of the Augusta room back to our multiple groups that rely on that room for their activities. Once the Augusta room is operational, it will take some of the restraints off of scheduling banquet room events. With the 8 -10 week delivery of lockers...

The golf season is beginning soon, and we have lots to look forward to this year. Both the Men's and Women's Golf Association calendars are posted in this edition; be sure to save these dates! Additionally, get a preview of the MGA Summer Classic schedule in this issue. You should have received emails already with the registration form, but if not you can click the link attached to the schedule to download the form and fill out.

As a last announcement, we want to wish one of our Assistant Golf Professionals, Kyle Piedimonte the best as he will be leaving LOCC mid-March to focus full time on his new company that specializes in painting and remodeling.

Turf Tip

STEVE GRIESINGER,
GOLF COURSE SUPERINTENDENT

As we approach opening day, I want to remind membership that the course will be closed Monday & Tuesday, March 27th and 28th for aerification. It's a necessary step to ensure the greens become healthy and grow strong roots before play takes off.

From the USGA Experts: "Aeration is an essential program to keep playing surfaces healthy and in good condition. Aeration primarily is performed to control organic matter – i.e., decaying roots and grass stems – relieve soil compaction, stimulate root growth and improve drainage. If organic matter becomes too thick, it acts like a sponge and holds water at the surface after rain or irrigation. Excessive organic matter also inhibits root growth, reduces oxygen levels in the soil, encourages disease and eventually can lead to turf failure. Furthermore, excessive organic matter creates soft surfaces prone to ball marks, foot printing and inconsistent playing conditions. Aeration and topdressing are the most effective ways to control organic matter and maintain smooth, firm putting surfaces."

See you out on the course!
