We continue to work diligently with the Golf Committee and provide smart recommendations to the Board for capital improvements. We now have Board approval to demolish the existing deck on the east side of the building and get a new deck that is 5' wider which will allow us to have quality outdoor furniture for a nice dining or cocktail experience with friends. The new deck will have a modern rail system and composite decking. This project is jointly paid for between the LOCC and the LPOA with the furniture being purchased by the LPOA. This deck is scheduled to start the middle of June, after the Summer Classic, and will last about 45 days. Cart traffic will be routed around the front of the building during demolition and construction. Additionally, we continue to plan the feasibility of the T Box project with the prime focus on hole no. 6...

STEVE GRIESINGER,
GOLF COURSE SUPERINTENDENT

Spring has arrived and everything is picking up, but that is how it works in the springtime. As you may know during this time it is difficult to keep up with mowing the golf course. The weather plays a very important role on how well our mowing goes. We will do our best to keep up with the grass. As you have noticed above average temps in April the Zoysa fairways have greened up nicely, and have already produced seed heads which you will notice add a brown, purplish tint to the grass. They are wiry and do not mow up well. Good news, they don't last long. There are a few spots that have been a bit slower to turn green.

Most of these areas are contaminated spots of Bermuda grass which takes several weeks longer to green. The contamination is from Zoysia sod that we receive that had little sprigs of Bermuda and after several years becomes bigger. There are also some early stages of a patch disease called Zoysia Patch that will affect us in the month of May. It happens every spring and fall in Zoysia when the temperatures are cooler and...
