Behind the scenes, Steve and his team have been working hard preparing the course for the upcoming spring season. Their focus this month includes turf recovery, bunker edging, tree cleanup, and early-season equipment servicing. These efforts ensure that when spring arrives in full force, the course is healthy, consistent, and ready for peak play.

You'll also notice activity around our golf cart fleet. Our staff is in the process of upgrading and refreshing the carts to improve reliability, comfort, and the overall member experience. These enhancements are being worked on over the next several weeks, and we're excited for...

Long-Term Care planning helps protect your family from the cost of extended care.

- Nearly 70% of Americans will need long-term care
- It's the #1 reason retirees run out of money
- The average cost exceeds \$250,000

Turf Tip

STEVE GRIESINGER,
GOLF COURSE SUPERINTENDENT

As we do every winter before the season, it begins with a “GRIND”, literally. We have approximately 30-reel type cutting units. Some mowers have three per mower and some have five. These reels will need to be un-installed from their machines, torn down to replace bushing, bearings, bed knives, etc. We will then relief grind and spin grind. Then grind brand new bed knives for each unit so they are razor sharp and re-installed back on the machine. We will maintain the precision edge throughout the season by back-lapping and touch up grinding as the bed knives wear.

For the next several weeks the shop will be singing to the sweet sound of metal on metal.

Can't wait for Spring!
